Dear Editor,

We are submitting the final files to our accepted paper T-SP-13946-2012.R2, "The Performance of a Matched Subspace Detector that Uses Subspaces Estimated from Finite, Noisy, Training Data". We thank you very much for the decision for publication and the excellent insights provided by the reviewers throughout the review process. We have attached a pdf of the final manuscript in single and double column format as well as a pdf of our contact information and a rar file containing all tex files and figures used in the manuscript.

Regards,
The authors
